

Technical Specifications for models (S/H-1,S/H-2)

SPV Module (8)

150 watts Peak. High Temperature Amorphous Silicon, 65C operating temperature.

Lamps

2,400 Lumens CCFL type

Battery

12 Volts, 130 Amp Hours, Deep Cycle, VRLA, Maintenance Free, Solar Battery

Electronics

High efficiency SC Controller with Battery charge regulation. Auto cut off feature. Reverse Polarity indication, Auto Fuse and short circuit protection. Battery condition indicators. Solar power control.

Structure

Hot Dipped Galvanized Poles or Aluminum, Powder Coated.

Usage

Auto operation or preset lighting control 14 Hours per night duration.
